Formula 184

Heavy Duty Liquid Alkaline Foam Cleaner

**FOOD SAFETY
CHEMICALS**

DESCRIPTION

- Powerful alkaline foam cleaner containing alkaline stabilizers, wetting agents, detergents and glycol ether.
- Effective for the removal of difficult carbonized fats and oils.
- Can be used through a foaming device, low pressure sprayer, by dipping or manual cleaning.
- Hard water tolerant, rinses away easily and is biodegradable.

Its dense foam acts like a concentrated cleaner, sticking to horizontal and vertical surfaces as well as machinery.

Recommended for use in smoke houses, ovens, metal oven conveyors and generally where there are carbonized soils present.

DIRECTIONS FOR USE

Dilutions depend on the degree and type of soils. For best results, apply the solution to warm surfaces up to 45°C (110°F). The time needed for the solution to act depends on the degree of soils.

Difficult carbonized soils: Dilute 6-10%.

Food Safety Chemicals gives the assurance of top quality and performance together with safety and environmental care in line with the latest worldwide regulations. Food Safety Chemicals products comply with European legislative and HACCP requirements for the purposes intended.

Additional information concerning handling, storage and safety of the product are contained in the Material Safety Data Sheet and on the label of the product.

Medium soils: Dilute 3-5%.

Light soils: Dilute 2-3%.

Rinse with approved potable water.
A dilution of over 1% is not recommended for aluminium or galvanized surfaces.

Brand Approval

Packaging	20 Litres
Physical state	Liquid
Colour	Colourless
Odour.....	Odourless
pH	Ca 13.5-14.0
Density.....	1.085 g/ml
Alkalinity/acidity	N/A
Flash point	>100°C, does not maintain combustion
Explosive properties	Not applicable
Oxidising properties	Not applicable
Viscosity	N/A
Solubility	Soluble 20° C
Boiling point	100° C
Melting point	Not applicable
