

Green Wash

Fruit & Vegetable Sanitiser Tablets

DESCRIPTION

- Effervescent sanitising chlorinated tablets for fruit, vegetables and eggs.
- Active ingredients act against bacteria and spores. Drastically reduce the number of bacteria which affect the freshness without altering the appearance of products.
- Very easy to use, dilutes quickly.
- Biodegradable.

DIRECTIONS FOR USE

Fruits & Vegetables

Rinse fruit & vegetables well, removing heavy soils and any insects present.

Dilute one tablet **Green Wash** in 20 litres of potable water for the necessary solution of 50 ppm chlorine.

Make sure the tablet has dissolved fully and then place the fruit or vegetables in the solution.

Allow to act for 10 minutes. Rinse with potable water and allow the produce to drain well before storing.

Food Safety Chemicals gives the assurance of top quality and performance together with safety and environmental care in line with the latest worldwide regulations. Food Safety Chemicals products comply with European legislative and HACCP requirements for the purposes intended.

Additional information concerning handling, storage and safety of the product are contained in the Material Safety Data Sheet and on the label of the product.

Eggs

Wash eggs to remove heavy soils.

In the designated bowl, dilute one tablet **Green Wash** per 20 litres of potable water.
The temperature of the solution to be higher than the eggs.

Make sure the eggs are not cracked. Place in the solution for 5 minutes.

Brand Approval

After the procedure, rinse with clean potable water and allow to dry before using them.

Use a fresh solution each time.
