

SaniTabs

Chlorinated Sanitising Tablets

**FOOD SAFETY
CHEMICALS**

DESCRIPTION

- Effective chlorinated general purpose tablet.
- Active against bacteria and spores.
- Suitable for sanitising surfaces and equipment.
- Recommended for use in food processing and handling establishments, care centres, schools and generally where effective sanitation is required.
- Effervescent tablet dissolves easily.

Food processing establishments:

Dilute one **SaniTab** in 5 litres of potable water to achieve a solution of 200 ppm chlorine.

Lighter disinfection: Dilute 1 **SaniTab** in 20 litres of potable water to achieve 50 ppm chlorine solution.

Make sure the tablet has dissolved fully. Apply the solution to the surface and allow to act for at least 5 minutes. Rinse with potable water and allow to dry.

Dilute in water only. Do not mix with other acids or chemicals.

DIRECTIONS FOR USE

Dilutions depend on the use of the tablet.

General disinfection: Dilute one **SaniTab** tablet in 1 litre of potable water to achieve a solution of 1,000 ppm chlorine.

Brand Approval
