

Rinseaid Master

Machine Dishwashing Rinse Aid

DESCRIPTION

- Rinse aid for dishwashing machines with a blend of specialised low foam wetting agents.
- Excellent drying action, does not leave specks or lines on dishes, cutlery and glasses.
- Biodegradable

Rinses off easily and does not leave residues or lines. Recommended for all types of commercial kitchens and industrial facilities.

May be used in automatic dishwashers with internal or external dosing system or added by hand, on conveyor machines and other types of automated washing systems.

DIRECTIONS FOR USE

Add to the dishwashing machine according to manufacturer's instructions.

As a general rule, the product should be diluted between **0.1 – 0.3%** in the final rinse through the dosing system. Temperature of the water should be at least 80° C

Safe on stainless steel, aluminium and other soft metals when used according to instructions.

Brand Approval

Packaging	4 Litres, 20 Litres
Physical state	Liquid
Colour	Blue
Odour.....	Odourless
pH	c 3.5
Special gravity	1,000 g/ml
Solubility	Total
Freezing point	0°
